## *8th Annual Golf Outing*

IN LOVING MEMORY OF ALBERTO PANICCIA SR.

ALL PROCEEDS DONATED TO  
**THE CANCER INSTITUTE AT ST. FRANCIS HOSPITAL**

# JULY 26, 2021

OLD WESTBURY GOLF & COUNTRY CLUB  
270 WHEATLEY ROAD • OLD WESTBURY, NY 11568

We promised you excellence and are proud to deliver on that promise every day.

## MISSION ACCOMPLISHED!

Over the last three years, we have been adding capacity to our plant, terminals and logistics to create an exceptional experience for our customers.

Our mission is now accomplished; the plant has commissioned two new silos with 180,000 mt of cement storage, the Bronx Terminal and its two truck lanes are fully operational, the new dome, two scales and warehouse in our Providence Terminal make this 75,000 mt facility the best in its class, and we added the NACC New Yorker, a 28,000 mt cement vessel, to our fleet supplying the US Northeastern U.S.

We are deeply grateful to our customers and partners who took a chance on us when we were new to the industry and stood by us as we expanded to meet their growing needs. Today, our product is second to none, our reputation is strong, and the future looks very bright.

*High Standards. Customer Conscious. Ecologically Sound.*

# CASA

With your help, CASA's past outings have raised **\$468,184.81** to the Cancer Institute at St. Francis Hospital. We thank you for your continued support this year and hope to see you next year.

# CASA

## Always Putting Their Hearts into Cancer Care

Led by Bhoomi Mehrortra, M.D., the dynamic Cancer Institute at St. Francis Hospital, which is accredited by The Commission on Cancer (CoC) of the American College of Surgeons, continues to provide leading edge oncological care for patient on Long Island,

In 2019, the Catholic Health Services of Long Island and St. Francis Hospital's affiliation with Roswell Park, a comprehensive cancer center in Buffalo, NY, was finalized, permitting the Institute to pursue research opportunities and begin clinic trials on campus. "Providing clinical cutting edge research right here in our own backyard is obviously very important for our patients," says Dr. Mehrortra. "The field of oncology moves quickly and we are making significant progress purely by virtue of us having active clinical trials being able to ask important questions related to the biology, enology, and the genomics of cancers. Fortunately, based on those intensives, the treatments today are a lot more tailored to an individual person's needs."

In 2018 the Institute added colorectal surgery to its list of services with the recruitment of Daniel Popowich, M.D. There was also the creation of a multidisciplinary breast cancer program, in collaboration with Marie Hui-Mei Chen, M.D., from Breast Surgical Services; Rajasree Roy, M.D., from Medical Oncology; and Anne Vinokur, M.D., from Radiation Oncology, in which patients can take care of their medical needs in one day by seeing multiple specialists on the same day in a comprehensive manner.

A look through some of our  
 key projects and locations

**Mario M. Cuomo Bridge**

The TNY construction team paving the newly built Mario M. Cuomo Bridge (formerly named The Tappan Zee Bridge).

**The Vessel at Hudson Yards**

Tilcon NY supplied tons of aggregates which helped build the foundation for The Hudson Yards, which The Vessel rests on.

**Legoland New York**

Our teams supplied over 183,000 tons of rock which helped to shape NY Legoland.

**One World Trade Center**

We supplied rock and stone for the foundation of One World Trade Center Tower.

**LaGuardia Airport**

Tilcon NY has an asphalt paving contract with LGA which ensures fresh runways.

**Mt. Hope Asphalt**

A look at one of our asphalt plants in Mt. Hope New Jersey.

**Pompton Lakes Quarry**

Pompton Lakes Quarry, one of our highest producing sites.

**New Goethals Bridge**

The Tilcon NY construction team paved the New Goethals Bridge.

**Clinton Point Quarry Train**

Train carrying aggregates from our Clinton Point Quarry.

Across New York and New Jersey, TNY is a leading supplier of aggregates, asphalt, paving and recycling services. These materials are used extensively in a wide range of construction applications from major public road and infrastructure projects, to the development or refurbishment of commercial buildings and private residential communities.
